

FAMILY CONSTELLATIONS

Spring 2022

The Bert Hellinger
Method

Constellations are a systemic therapy form where we look for the causes of the disorder in the family system, and not in the individual's psyche alone.

Discovery of generational roots of trauma leads to awareness and into a healing process.

The method is applicable to family and workplace dysfunction, illnesses and imbalances in life in general.

Facilitated by Connie Norup
Certified constellator in 2009 from
The Hellinger Institute, Oslo
